Najm for Insurance Services

RAG Knowledge Base — FAQ Only

This document contains only customer-facing factual Q&A; content intended to be chunked and embedded for retrieval.

Najm General Information

Q: What is Najm?

A: Najm for Insurance Services is a Saudi company that provides insurance-related services for motor-accident cases.

Q: What does Najm provide?

A: Najm provides services related to reporting traffic accidents, following accident cases, accident reports, and other motor-insurance-related services.

Q: Where does Najm provide accident services?

A: Najm's current app documentation states that its accident service applies to accidents occurring within Najm's coverage in Saudi Arabia.

Q: Can I use Najm outside areas covered by Najm?

A: No. The current Najm app documentation states that the app cannot be used in areas that are not covered by Najm.

Q: Does the Najm app support English?

A: Yes. The current Najm app supports Arabic and English.

Reporting an Accident

Q: How can I report a traffic accident through Najm?

A: You can report an eligible traffic accident through the Najm mobile application or through the currently available Najm reporting channel.

Q: Can I report an accident using the Najm app?

A: Yes. The Najm app supports accident reporting.

Q: What does the Najm app do when I report an accident?

A: The app helps report the accident, records the accident number, obtains the accident location, and can assign the nearest Najm investigator.

Q: Can I take pictures of the accident through the Najm app?

A: Yes. The Najm app supports taking photos of the accident scene.

Q: Can I follow the status of my accident?

A: Yes. The Najm app supports following the accident status.

Q: Can I know when the Najm investigator is expected to arrive?

A: Yes. The Najm app provides the expected investigator arrival time when this information is available.

Q: Can I track the Najm investigator?

A: Yes. The Najm app provides a map feature that can be used to track the investigator when applicable.

Q: Can I follow the accident from reporting until the report is sent to the insurance company?

A: Yes. The current Najm app documentation states that customers can follow the accident status from reporting the accident until the accident report is automatically sent to the relevant insurance company.

Accident Reports

Q: Can I check the status of my accident report?

A: Yes. The Najm app supports checking the status of an accident report.

Q: What happens after the accident report is completed?

A: The current Najm app documentation states that the accident report can be automatically sent to the relevant insurance company.

Q: Can Najm tell me the status of my accident report?

A: Yes, accident-report status is one of the services provided through the Najm app.

Q: Can I get my accident number?

A: The Najm app automatically registers the accident number when an accident is reported through the application.

Insurance Policy Information

Q: Can I check my vehicle insurance policy through Najm?

A: Yes. The Najm app supports checking the status of the vehicle insurance policy.

Q: Does Najm replace my insurance company?

A: No. Najm and the insurance company have different roles. Questions about an insurance claim or payment may need to be handled by the relevant insurance company.

Q: Can Najm approve my insurance claim?

A: Claim approval is an insurance-company process. Najm's accident services and the insurer's claim process are separate.

Q: Can Najm tell me when my insurance company will pay my claim?

A: Payment timing depends on the relevant insurance-company claim process. Najm's accident-report service does not by itself determine the payment date.

Najm Mobile Application

Q: What services are available in the Najm app?

A: The current app provides accident reporting, accident-scene photos, accident-status follow-up, expected investigator arrival information, investigator map tracking, accident-report status, vehicle-policy status, Najm branch locations and contact information, and guidance and important information.

Q: Where can I find Najm branches?

A: The Najm app provides Najm branch locations on a map together with contact information.

Q: Is the Najm app available in Arabic?

A: Yes. The current app supports Arabic.

Q: Is the Najm app available in English?

A: Yes. The current app supports English.

Q: What is the current Najm customer-service number shown in the app listing?

A: The current Google Play listing for the Najm app shows 920000560 as the customer-service number.

Virtual Visit

Q: What is Najm Virtual Visit?

A: Najm Virtual Visit is a video-call service that allows customers to communicate directly with Najm to ask questions, solve problems, and receive assistance.

Q: Can I use Najm Virtual Visit from anywhere?

A: The official Virtual Visit page states that the service is available from anywhere.

Q: Why does Najm provide Virtual Visit?

A: The service is designed to provide quick responses and reduce the time and effort required to visit Najm offices.

Q: Is Najm Virtual Visit a video service?

A: Yes. Najm describes Virtual Visit as direct communication with customers through video calls.

Q: Is Virtual Visit currently a beta service?

A: Yes. The official Virtual Visit page currently labels the service as a Beta Version.

Minor Accident Reporting

Q: Can minor traffic accidents be reported electronically in Saudi Arabia?

A: Yes. The Saudi government platform provides a Minor Accident Reporting service that allows beneficiaries to report minor traffic accidents electronically by completing an accident form.

Q: How do I use the Saudi government Minor Accident Reporting service?

A: The government service instructions state that the user logs in to Absher, selects My Services, selects Vehicle Services, selects Minor Accident Reporting, and enters the required accident details.

Q: Is the Saudi government Minor Accident Reporting service free?

A: The Saudi government service page currently lists the service cost as free.

Q: What languages are available for the Saudi government Minor Accident Reporting service?

A: The Saudi government service page lists Arabic and English.

Customer Support Scenarios

Q: I want to report a new accident. What should I do?

A: Use an official Najm accident-reporting channel. The Najm app supports accident reporting for accidents within Najm's coverage in Saudi Arabia.

Q: I already reported an accident. How can I follow it?

A: You can use the Najm app to follow the accident status and check the accident-report status.

Q: I need to know where the investigator is.

A: The Najm app can provide investigator location on a map when the tracking feature is available for the case.

Q: I need my accident report status.

A: The Najm app supports checking the status of the accident report.

Q: I need information about my vehicle policy.

A: The Najm app supports checking the status of the vehicle insurance policy.

Q: I need to find a Najm branch.

A: The Najm app provides Najm branch locations and contact information on a map.

Current Source Information

Najm mobile application listing: the current Google Play listing was updated on August 25, 2026 and documents the app's accident-reporting and follow-up capabilities.

Najm Virtual Visit: the official Najm Virtual Visit page describes video communication for customer inquiries, problem solving, and assistance and currently labels the service as a Beta Version.

Saudi Government Minor Accident Reporting: the official Saudi government service page describes electronic minor-accident reporting through Absher.
